You Ref:

Accra, 10 August 2020

To Whom It May Concern

Subject: Attestation of Cooperation

In the framework of the signed Memorandum of Understanding on 6 August 2020 between the African Centre for Science and International Security (AFRICISIS) headquartered in Accra, Ghana and specialized in training, research and provision of consulting services in the field of safety, security and safeguards related to nuclear, chemical, biological and radiological topics attests that the **Ajaweed Alkhar Holding Company**, headquartered in Tripoli, Libya and specialized in oil services, training, safety, occupational health and renewable energies, is one of the companies that cooperate with AFRICISIS.

Under this cooperation framework, the role of AFRICISIS range from building capacity in radiation protection safety through training and focus meetings to providing NORM management services, and conducting independent radiation audits in facilities or locations where nuclear materials, radioactive sources, or both have been or are being used and ensuring offered services are consistent with national regulations and international practices.

This attestation is issued to serve the purpose for which it was requested.

Sincerely yours,

Hubert K. Foy
Director of Research and Development
